

Automation Developer Position - Home Task

1. Here is a public API which is able to detect text from images
<https://ocr.space/ocrapi>
2. Write a suite of the most important smoke tests (4-5) for this service, a good coverage would include login tests, file type validation test, basic functionality tests, etc.

Your project should include:

- a. Input examples for negative and positive expected results.
- b. A detailed report which summarizes a test run.

Please add asserts and logs as needed.

Your code should be written in Python/Javascript, and you may use any test framework, library or SDK you'd like.

Code should be submitted as a Github project, include documentation and a readme file which explains how to use it.

For technical questions in regards to the task you may contact me at:

aviad.bu@moonactive.com or 050-7320303.
